FEE STRUCTURE

What are fees & charges?

Any business that lends money must go about the process of checking the loan applicant's details and then documenting the loan advance. There are staff wages to pay, property rents, and third party fees and charges to pay. Like registration fees, High Court and Land Transport Authority fees to pay. As well, where more intense management of a loan is required, costs increase. Letters are issued and phone calls are made. All of these activities attract fees and charges. This brochure documents what Kontiki Finance's fees and charges are at this time.
